PROFILE

I am Senior UI/UX Designer, Front-end Developer, SharePoint Designer and System Analyst in Riyadh. I had the pleasure to work for numerous clients in KSA. Obsessed with his love to create beautiful things and passionate about usability, I always strives to create websites that would keep balance between beauty and efficiency. I'm also proud to say that I've been part of building products that are empowering literally hundreds of thousands of real people to be themselves on the web.

I'm focused on creating meaningful experiences through design by bringing an engineering perspective and creative problem-solving approach to create products and experiences people love to use.

EXPERIENCE

Solutions by STC

Apr 2020 – Present

Digital Experience Specialist, Full Stack UI/UX Designer/ Front-end Developer and SharePoint Designer at KSAUHS

Developing front end interfaces of SharePoint Portals with Conduct testing of completed applications and websites to Assess best user experience. Enhancing the user experience by creating seamless navigation through various digital programs and interfaces Use coding to develop the aesthetics implemented within a website or product. Combine interface design concepts with digital design and establish milestones to encourage cooperation and teamwork. Develop overall concepts for improving the user experience within a business webpage or product, ensuring all interactions are intuitive and convenient for customers. Collaborate with back-end web developers and programmers to improve usability. My currently duties are:

Aug 2010 – Nov 2013

Web, Graphics Designer UI/UX and SharePoint Designer at Ministry of Water and Electricity

This role focuses on the User interface of web projects of Ministry of Water and electricity as well as developing interactive designs for print media and multimedia for E-services department. The most challenging area is making eye catching designs for application with functional compatibility. It also involves development and maintenance of various web based corporate system in both design and development aspects. Following Projects I worked on.

1. Ministry Main Portal Design.
2. Ministry Intranet Portal Design.
3. Well Application Design.
4. Redesign Drilling Contractors.
5. Hayak (Billing) Application UI Development.
6. Billing Mobile Application Design.
7. Barq System Redesign (Internal Transaction System).

Dopravo

Jul 2009 – Aug 2010

Graphics Designer

Working with Dopravo was a challenge for me because my responsibilities were to work as designing and development fields. In designing I was responsible to develop overall layouts and production designs for web interface, corporate reports and other publications. I also handled information architecture and requirement gathering.

Maaz

Mar 2009 – Jul 2009
